<p style="text-align: center;">HEALTH HAZARD INFORMATION ON INDIVIDUAL HAZARDOUS INGREDIENTS</p>

NOTE:- In the final mixture, the hazards of an ingredient can be modified. The below information needs to be interpreted as such:-

TERPENE HYDROCARBON

Considered to be of low toxicity. May irritate mouth and throat. May lead to gastric upset. Eye irritant. Prolonged eye contact with vapour may cause irritation; contact with liquid will irritate. Will degrease skin resulting in loss of natural oils. Inhalation of spray/mist particles may irritate respiratory tract.

NOTE:- At low concentration in product and in water based system, the above effects are significantly lowered.

ALIPHATIC HYDROCARBON

Swallowing or vomiting may cause solvent aspiration into the lungs which may cause mild to severe pulmonary injury and possible death. High concentration of vapours will cause eye irritation and respiratory tract irritation.

OEL: 300ppm maximum for 8 hour working day, 5 days a week.

NOTE:- At low concentration in product and in water-based system, the above effects are significantly lowered.
